Chicago Heights, Illinois 60411

Gentlemen:

Attached is the final NPDES Permit for your discharge. The Permit as issued covers discharge limitations, monitoring, and reporting requirements. The failure of you to meet any portion of the Permit could result in civil and/or criminal penalties. The Illinois Environmental Protection Agency is ready and willing to assist you in interpreting any of the conditions of the Permit as they relate specifically to your discharge.

The Permit as issued is effective as of the date indicated on the first page of the Permit. You have the right to appeal any condition of the Permit to the Illinois Pollution Control Board prior to the effective date.

Should you have questions concerning the Permit, please contact Gary Cima at the telephone number indicated above.

Very truly yours,

  
Thomas G. McSwiggin, P.E.  
Manager, Permit Section  
Division of Water Pollution Control

NPDES Permit No. IL0062502

## Effluent Limitations and Monitoring

PARAMETER	LOAD LIMITS		CONCENTRATION		SAMPLE FREQUENCY	SAMPL TYPE
	lbs/day		LIMITS mg/l			
	30 DAY AVG.	DAILY MAX.	30 DAY AVG.	DAILY MAX.		
1. From the effective date of this permit until June 30, 1986, the effluent of the following discharge shall be monitored and limited at all times as follows:						
Outfall(s): 001						
Flow					1/Month	Repc Mont Total Flow
Total Suspended Solids			35	70	1/Month	8 Hc Comp

Special Conditions

1. The pH shall be in the range 6.0 to 9.0.
2. Samples taken in compliance with the effluent monitoring requirements shall be taken at a point representative of the discharge, but prior to entry into the receiving stream.
3. For the purpose of this permit, this discharge is limited to storm water and groundwater seepage, free from process and other wastewater discharges.
4. The permittee shall record monitoring results on Discharge Monitoring Report Forms using one such form for each discharge each month.

Discharge Monitoring Reports shall be mailed to the IEPA at the following address:

Illinois Environmental Protection Agency  
Division of Water Pollution Control  
2200 Churchill Road  
Springfield, Illinois 62706

Attention: Compliance Assurance Section

5. The completed Discharge Monitoring Report forms shall be retained by the permittee for a period of six months and then shall be mailed and received by the IEPA in accordance with the following schedule, unless otherwise specified by the permitting authority.

Period	Received by IEPA
April, May, June, July, August, September	October 15
October, November, December, January, February, March	April 15

NPDES Permit No. IL0062502

Construction Authorization

Authorization is hereby granted to the above designee to construct the mine and mine refuse area described as follows:

Surface mining facilities (SIC 1422) located in Section 19, T35N, R15E, Cook County. These facilities consist of 40.58 acres as outlined on the maps submitted. There is to be no process water generated at this facility. Groundwater seepage and surface drainage control shall consist of a 4,000 gpm rated pump floated in the collection point of the mine pit with discharge #001 to the Lansing Drainage Ditch.

The abandonment plan submitted with the application assigned NPDES #IL0062502 shall be executed and completed in accordance with Rule 509 of Chapter 4.

This Authorization is issued subject to the following Special Condition(s). If such Special Conditions require additional or revised facilities, satisfactory engineering plan documents must be submitted to this Agency for review and approval.

If any statement or representation in the application is found to be incorrect, this permit may be revoked and the permittee thereupon waives all rights thereunder.

The issuance of this permit (a) shall not be considered as in any manner affecting the title of the premises upon which the mine or mine refuse area is to be located; (b) does not release the permittee from any liability for damage to person or property caused by or resulting from the installation, maintenance or operation of the proposed facilities; (c) does not take into consideration the structural stability of any units or parts of the project; and (d) does not release the permittee from compliance with other applicable statutes of the State of Illinois, or with applicable local laws, regulations or ordinances.

This permit may not be assigned or transferred. Any subsequent operator shall obtain a new permit from the Illinois Environmental Protection Agency.

There shall be no deviations from the approved plans and specifications unless revised plans, specifications and application shall first have been submitted to the Illinois Environmental Protection Agency and a supplemental permit issued.

NPDES Permit No. IL0062502

Construction Authorization

The permit holder shall notify the Illinois Environmental Protection Agency (217/782-3637) immediately of an emergency at the mine or mine refuse area which causes or threatens to cause a sudden discharge of contaminants into the waters of Illinois and shall immediately undertake necessary corrective measures as required by Rule 511 under Chapter 4 of Illinois Pollution Control Board Rules and Regulations.

Final plans, specifications, application and supporting documents as submitted and approved shall constitute part of this permit and are identified in the records of the Illinois Environmental Protection Agency, by the permit number designated in the heading of this Section.

No effluent from any mine or mine refuse area under this permit shall alone or in combination with other sources cause a violation of any applicable water quality standard as set out in the Illinois Pollution Control Board Rules and Regulations, Chapter 3.
